

WARNING

READ THIS BEFORE INSTALLING THE WATER METER

A SMALL NUMBER OF OUR ELECTRONIC WATER METERS HAVE BEEN DAMAGED WHILE IN USE ON READY MIX TRUCKS. IN MOST CASES THIS DAMAGE HAS BEEN ATTRIBUTED TO THE **DISCHARGE OF COMPRESSED AIR THROUGH THE METER**. THIS CONDITION VOIDS THE WARRANTY. IF THE OPERATOR OF THE TRUCK HABITUALLY "BLOWS" THE TANK OUT INTO THE DRUM THEN A BYPASS SHOULD BE BUILT AS DEPICTED BELOW.

ALSO, SOME METERS HAVE BEEN CRACKED OR BROKEN BY TURNING THE NYLON BODY OF THE METER TOO TIGHTLY ONTO STEEL PIPE. **TAKE CARE NOT TO OVERTIGHTEN!** PLEASE CHECK YOUR OWNERS MANUAL FOR SPECIFIC INSTRUCTIONS ON INSTALLATION.
